Training

Geeks For Geeks

DSA Self-Paced

June-July 2024

- Completed structured training in Data Structures and Algorithms (DSA) using C++, covering arrays, linked lists, trees, graphs, recursion, and dynamic programming.
- Enhanced problem-solving and algorithmic efficiency through extensive practice on coding platforms.
- Built mini-projects such as a Sudoku Solver, demonstrating advanced algorithmic techniques like backtracking, recursion, and bit masking to optimize performance and manage computational complexity.

Projects

GDP Analysis and Prediction | Python, Streamlit, SQLite, Plotly

Dec 2024

- Built an ML-powered web application to forecast GDP trends for 227 countries, achieving 90% model accuracy and supporting economic analysis for policy recommendations.
- Integrated dynamic data visualizations and input-driven recommendation features using Streamlit and Plotly to boost user engagement.
- Implemented supervised learning models for predictive analytics and managed user sessions and authentication using SQLite.

Amazon Shipping Analytics | Tableau, Data Visualization, CSV

Oct 2024

- Created a Tableau dashboard to track 15+ shipping KPIs, visualizing trends from 100K+ records to optimize Amazon's delivery operations.
- Analyzed patterns in daily and monthly order statuses, delivery performance, and regional logistics trends.
- Enabled data-driven decision-making for logistics teams by providing actionable insights to improve delivery efficiency.

Human Activity Recognition Using Smartphone Data | Python, Machine Learning

Nov 2024

- Preprocessed accelerometer and gyroscope data using noise filtering, class balancing, and feature extraction via sliding windows to improve classification accuracy.
- Built and optimized ML models (Logistic Regression, Decision Tree, SVM) with EDA-driven insights, hyperparameter tuning, and cross-validation to enhance activity recognition performance.

Certificates

SQL and Database Management System | Board Infinity

Jul 2024

R Programming | IBM

Apr 2024

DSA Self-Paced | GFG

Mar 2024

Software Testing | NPTEL

Nov 2023

Technical Skills

Languages: Python, R, SQL, C++, Java

Data Science and Analytics: Data Preprocessing, EDA, Predictive Modeling

Tools and Libraries : Pandas, NumPy, Matplotlib, Plotly, Power BI, Tableau

Developer Tools: Git, VS Code, IntelliJ IDEA , Docker

Education

Lovely Professional University

2022 – Present

Bachelor's in Computer Science and Engineering — CGPA: 7.55

Punjab, India

C.M. Science College

2019 – 2021

12th Grade, Science Stream — Percentage: 80.2%

Bihar, India

U.M.S Paghari

2018– 2019

10th Grade — Percentage: 88.8%

Bihar, India
